YOUR SAFETY MAKER

FULL FACE MASK

TR 82 E WITH BUCKLES FOR HELMETS

TR 82 E / TR 82 A E / TR 82 B E

TR 82 E CL3, TR 82 A E CL3+ and **TR82 B E CL3+** are full face mask equipped with a special system of metal buckles mounted on the helmets of Fire Brigades and Police.
The system assures a great stability and tightness of the mask on the face.
This system has been specifically designed in order to allow an easy connection between the mask and the helmet and to secure, at the same time, the safe positioning of the mask on the operator's face, thus avoiding any accidental loss or leakage deriving from any sort of accidental crash.

TR 82 E CL3 (P/N 112100000) is a negative pressure full face mask with threaded connector to **EN 148-1**. It can be used with negative pressure devices provided with the same threaded connector to EN 148-1, such as filters, and with compatible helmets.

TR 82 A E CL3+ (P/N 112110000) is a positive pressure full face mask with threaded connector to **EN 148-3 (M45x3)**. It can be used with Spasciani positive pressure SCBAs equipped with Type A threaded connection to EN 148-3 and with compatible helmets.

TR 82 B E CL3+ (P/N 112120000) is a positive pressure full face mask with bayonet fitting **DIN 58600**. It can be used with Spasciani positive pressure SCBAs SCBAs with BN type connector and with compatible helmets.

The **TR 82, TR 82 A E CL3+ et TR 82 B E CL3+** is composed by:
- Moulded face blank
- Wide visibility panoramic visor
- Group that holds in one single body the connection, the exhalation valves, the inhalation valve, the speech device, the pre-loaded valve group
- Inner nose cup
- Metal buckles for helmet connection

CLASSIFICATION
The masks are PPE in accordance with Regulation (EU) **2016/425**.
TR 82 E is a full face mask **Class 3** to **EN 136:1998.**
TR 82 A E CL3+ and **TR 82 B E CL3+** meet the requirements of **EN 136:1998 Class 3+** (for use with Type 2 SCBAs).
The masks are tested coupled with helmets according to DIN 58610.
